

VICTORIA CONFERENCE CENTRE SAFE SPACE PLAN

Staff Training and Preparedness

Staff, contractors and suppliers have been trained on the safety, sanitation protocols and Duty of Care as per WorkSafe BC Safety Plan including wearing Personal Protective Equipment.

Nanoseptic Products

NanoSeptic Continuously Self-Cleaning Surfaces use safe, non-toxic materials to clean high traffic public touchpoints. NanoSeptic surfaces utilize mineral nano-crystals which create a powerful oxidation reaction that works continually to oxidize organic contaminants. No poisons, heavy metals or chemicals are used. NanoSeptic skins are used on door surfaces, door handles and elevator buttons.

Meeting Room Set-ups

Each meeting room at the Victoria Conference Centre has been configured to facilitate physical distancing and utilize the generous outdoor and foyer space to create further safe areas. The VCC Events Team are also ready to customize seating capacities and set-up to the needs of the group.

Hand Sanitizer Stations

Hand sanitizer stations are located throughout the facility as well as educational signage for hand and respiratory hygiene.

Social Distancing

The Victoria Conference Centre's Social Distancing Plan includes attendee flow management for all access routes, queuing space and entrances including transparent shields where required, proper distancing signage and floor markers. Staff and signage encourage and remind people to practice physical distancing by standing at least 6 feet (2 meters) apart. The Centre is set up to allow for spaces that adhere to the current physical distancing requirements.

Audio Visual

Encore Canada, our AV Partner, is educating team members on enhanced cleaning procedures. Tent cards will indicate equipment has been cleaned with attention to high touch items such as markers, wireless presenters, keyboards and microphones. Close attention to detail around these items that encounter customers, and technicians at the forefront of these enhanced cleaning procedures.

We understand that people are thinking about meetings and events differently now. We are too. That's why we have elevated our exacting standards and rigorous protocols to create new norms and behaviors to address the unique challenges presented by the current pandemic environment.
